

ESTABLISHED 1867

HANLON & GOODMAN

HIGH GRADE BRUSHES

HANLON & GOODMAN Brushes are made of absolutely pure bristles, the finest of their kind, and every H. & G. Brush is warranted to give perfect satisfaction.

H. & G. "RUBRISTO" Brushes are the acme of perfection in the art of brush making, the bristles being set in rubber that is vulcanized—properly vulcanized—as hard as steel.

A "RUBRISTO" Brush can be used in anything that is not injurious to bristles. You cannot make the bristles come out, whether you use the brush in paint, varnish, shellac, hot glue, or anything else.

HANLON & GOODMAN Brushes are the result of forty-seven years of earnest endeavor in the making and improving of brushes in the interest of practical painters and decorators.

The dealer who carries H. & G. Brushes builds quality reputation for his store.

The statement that H. & G. Brushes "are the best brushes made" cannot be truthfully contradicted, or even qualified. Whether the setting be of rubber, glue, cement or rosin, whether the binding be of leather, nickel, brass or steel—Hanlon & Goodman Brushes are the best brushes made.
